

DIPHTHERIA-TETANUS-ACELLULAR PERTUSSIS (dTap) COMBINED VACCINE FOR PREGNANT WOMEN

PHARMACY IMMUNIZATION PROGRAM

PREGNANT WOMAN WANTS TO GET dTap IMMUNIZATION
HOW FAR ALONG IN PREGNANCY?

ELIGIBILITY:

- Pregnant woman during every pregnancy
- Prescription required for vaccine as it is Schedule 1 (RPh, APA, MD, NP can prescribe)

Note: Always check Netcare to determine if patient has been previously immunized before administering vaccine. If it has been provided at anytime during pregnancy, DO NOT RE-IMMUNIZE.
